**HYDROPHOBIC** LEATHERS & TEXTILES

## INSTRUCTIONS

READ CAREFULLY BEFORE APPLICATION

MADE IN FRANCE

Protection agent for synthetic fabrics, cotton, velvet, leather, suede and nubuck.

### Properties :

- Protects fabrics.
- Renew and protects leather.
- Stain protector (tea, coffee, wine, oil, etc).
- Does not change colors.
- Washable resistant.

## INSTRUCTIONS

### Prepare the items :

- Protect the parts that should not be treated.
- Before any treatment, it is recommended to test the product on a hidden area of the item to treat in order to make sure the product and the item are compatible.
- Clean and dry the item that requires treatment.

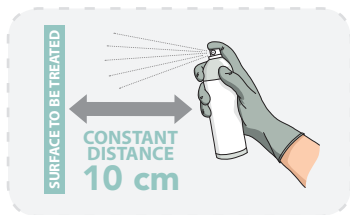

### Application :

Should be applied outdoors or in a **well-ventilated room**.

The person applying the product should **wear gloves, protective goggles, a mask and protective clothing**. Do not apply on hot surfaces.

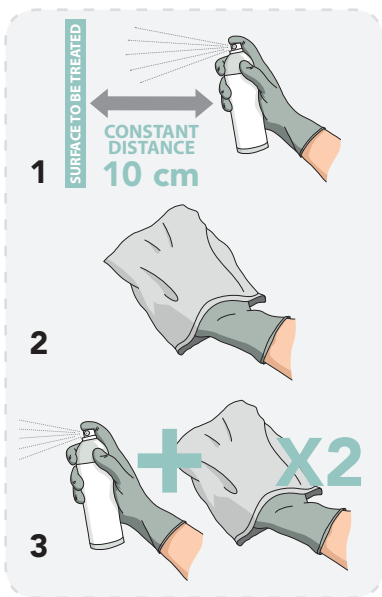

3 ways of application are possible (cases A, B and C) :

**A // Application with a spray on textiles, suede and nubuck.**

- Shake the bottle before use.
- Spray evenly in a thin layer about 10 cm from the surface to treat.
- Repeat the operation a second time after 5 minutes.

**B // Application with a spray ON LEATHER.**

Shake the bottle before use.

- 1. Spray a very small amount of product** evenly at approximately 10 cm from the surface to treat, **avoiding the appearance of drops or drips**.
- 2. Spread the product with the glove** provided until it dries.
- 3. Repeat the operation a second time** after 5 minutes.

### Cleaning and maintenance of the spray :

After use, turn the head of the spray down and pull the trigger to purge the pipe.

**C // Apply by dipping for medium and large surfaces (t-shirts, shirts, tablecloths, etc.)**

For best results, it is recommended to apply the product by dipping for t-shirts, shirts, tablecloths, etc. To do this, pour the product into a clean and dry container. Then completely immerse the object to treat, then drain it completely before letting it dry out.

### **Drying time :**

Dry for an hour in a dry and ventilated place, will be touch dry but another week of drying will be necessary for the product to acquire its optimal properties.

### **PRECAUTIONS FOR USE**

- For best performance of the product on a treated object, it is recommended not to use a fabric softener for cleaning.
- It is possible to speed up the drying time by throwing the treated item into the dryer. In this case, after the application of the product, let dry at room temperature. Then, once dry, put it in the dryer.

### **CONSUMPTION**

1 to 5 m<sup>2</sup> for a 100 ml spray bottle.

### **STORAGE**

This product must be kept **tightly closed** and in a dry and ventilated area, away from frost, light, heat, hot surfaces, sparks, open flames and any other source of ignition and away from food and beverages including pet food.
